Glossary

ARR *Annual Recurring Revenue*

The recurring revenue of active subscriptions, which is paid to the vendor after deducting continuity discount and marketplace fees.

ARR for the current, incomplete month is estimated based on the days left.

Churn *Percentage of lost users*

Percentage of users, who did not renew an active subscription in the current month.

This is calculated with a grace time of 3 days. In the first year on the marketplace, this only considers monthly subscriptions. In the second year and later, both annual and monthly subscriptions are considered.
